Frontend Development.

React, JavaScript (ES6+), HTML5, CSS3, Responsive Design

Tools & Technologies:

Git & GitHub, VS Code, Figma, REST APIs

Soft Skills:

Problem Solving, Communication, Adaptability, Attention to Detail

PROFILE

Frontend developer and creative builder with a strong foundation in JavaScript, React, and modern UI design. I specialize in transforming ideas into clean, responsive, and engaging web experiences.

With a background in communication and storytelling, I bring a unique blend of technical skill and creativity — building products that are not only functional, but meaningful and visually compelling.

Currently expanding into

full-stack development and TypeScript, with a focus on building scalable, user-focused digital products.

LANGUAGES

English, Twi, Ewe
